DETAILED ACTION

Election/Restrictions

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-15, drawn to a composition and delivery system comprising a lipid regulating agent dissolved or dispersed in at least one oil with one or more emulsifiers wherein the mixture is capable of forming an emulsion upon dilution with an aqueous phase, classified in Class 424, subclasses 455, 502 and Class 514 subclasses 460, 410, 510.
- II. Claims 16-18 drawn to a method of treating hyperlipidemia using a composition comprising a lipid regulating agent dissolved or dispersed in at least one oil with one or more emulsifiers wherein the mixture is capable of forming an emulsion upon dilution with an aqueous phase classified in Class 424, subclasses 455, 502 and Class 514 subclasses 460, 410, 510.

Inventions I and II are related as product and process of use. The inventions can be shown to be distinct if either or both of the following can be shown: (1) the process for using the product as claimed can be practiced with another materially different product or (2) the product as claimed can be used in a materially different process of using that product (MPEP § 806.05(h)). In the instant case, the process for treating hyperlipidemia can be practiced with another materially different product, e.g., Dextrothyroxine Sodium and Eldacimibe to name a few.

Because these inventions are distinct for the reasons given above and have

acquired a separate status in the art because of their recognized divergent subject matter, restriction for examination purposes as indicated is proper.

Applicant is advised that in order for the reply to this requirement to be complete it must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a petition under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Mojdeh Bahar whose telephone number is (703) 305-1007. The examiner can normally be reached on (703) 305-1007 from Monday to Friday from 9:00 a.m. to 5:00 p.m.
